

LeLi

Architecture & security overview

Architecture

- Hosted on redundant ISO certified data center*
- Firewall exposing only HTTPS port
- Linux with DDOS protection
- Full server backup every 4 hours
- Full DB + application backup daily (on Amazon Web Services S3)
- Certified e-mailing using Amazon Web Services SES
- SSL encryption (Comodo Extended Validation SSL) for client connections
- TCP monitoring every minute with e-mail / SMS alert system

* More info, see <http://www.thedatacentergroup.nl/certificeringen/>

Application security
